

QUICKLOADER new release

New! PCD-Windows Quickloader v6.4.2.

New Software Release for Napco Panel-Programming

Please be advised that Napco has released a new version of our PCD-Windows Quickloader Software – Version 6.4.2. This new version is fully-compatible with recent Microsoft Windows Updates that may impact older versions of Quickloader. We strongly encourage all dealers to update to this new version.

Quickloader version 6.4.2 is fully compatible with Windows 10, Windows 8 (32 and 64 Bit), Windows 7, Windows Vista, Windows 2003 Server SP1, and Windows 2000 SP4, XP SP2.

Quickloader version 6.4.2 is available for download on our Technical Library site from the link: <http://tech.napcosecurity.com/quickloader>. Additional information and installation instructions are also included on this page.

Thanks for your support,
